Mission and Description

Our Mission is to use online education to transform lives through Jesus, Justice and Technology.

Our Vision

We are reinventing Christian higher education to make it radically affordable and relevant to the needs of those serving the poor and addicted. We spread best practices to help a movement of faith-based organizations be more effective in transforming the lives of millions of homeless, addicted and low-income individuals each year. We also dramatically expand educational access to those who were recently homeless, addicted or imprisoned, providing them with education that leads to life transformation and employment.
